***Election/Restrictions***

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claim(s) 1-5, drawn to a process of making a semiconductor device.

Group II, claim(s) 6-9, drawn to semiconductor device.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the process of group I does not inherently form the product of group II because the recited surface roughness would not be obtained with all values of annealing temperature and annealing times recited.
